

## UNEQUAL TEE (EF)

COSMOIND's HDPE Molded EF Unequal Tees are the result of our in-house manufacturing expertise, which includes mold design, production and extensive testing. Made from High-Density Polyethylene (HDPE, PE4710/PE2708, PE100/PE80), these EF Unequal Tees are engineered to be fully pressure-rated, ensuring superior quality and exceptional performance.

### ADVANTAGE OF HDPE

HDPE offers high strength, chemical and water resistance, lightweight and impact durability, is environmentally friendly, and performs well within a specific temperature range, making it suitable for various long-term applications.
